About Company

NorthStar Impex is a garment manufacturing and export company based in Faisalabad, Pakistan – the heart of the country's textile industry.

We specialize in producing high-quality knitted garments and sportswear for global markets, with a strong focus on Europe and the Middle East. Our commitment lies in delivering consistent quality, competitive prices, and reliable lead times.

At NorthStar Impex, we believe in building long-term partnerships through trust, transparency, and continuous improvement.

Production & Capacity

At NorthStar Impex, we combine in-house capabilities with certified processing partners to ensure both quality and efficiency.

- Knitting: Circular knitting machines producing single jersey, fleece, interlock, pique, rib, and thermal structures.
- Dyeing & Processing: Partnered with Tauseef Textile, an OEKO-TEX & SEDEX certified facility for dyeing, finishing, and processing.
- Stitching Unit: Equipped with overlock, flatlock, and coverstitch machines to handle a variety of garments.

- Printing & Embroidery: Available through reliable local partners for branding/customization.
- Monthly Capacity:
 - T-Shirts: 20,000 – 25,000 pcs
 - Hoodies / Joggers: 10,000 – 12,000 pcs
 - Sportswear / Thermals: 8,000 – 10,000 pcs
- Lead Time: Standard production lead time 4–6 weeks, trial orders in 3–4 weeks.
- MOQ: Flexible starting from 150–200 pcs per style.

Quality & Compliance

We understand that global buyers demand consistent quality, compliance, and transparency. At NorthStar Impex, we ensure every stage of production meets international standards.

- Fabric Quality Control: Yarn count & GSM checks before knitting; shrinkage and colorfastness tests after dyeing.
- In-line Inspection: QC team checks stitching, measurements, and finishing during production.
- Final Inspection: 100% inspection before packing (AQL 2.5 standards can be followed on request).
- Compliance:
 - Partnered with OEKO-TEX & SEDEX certified dyeing units.
 - Working towards own OEKO-TEX Standard 100 certification.
 - Social compliance aligned with ethical labor standards.
- Sustainability Options: Organic cotton, recycled polyester, and eco-friendly packaging available on request.
